Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-27 are rejected under 35 U.S.C. 102(b) as being anticipated by
Ajika et al., 5,994,732.

Ajika et al., 5,994,732, discloses in Fig. 8 Prior Art a nonvolatile memory device comprising:

a plurality of memory sectors 3a;

each sector comprising a plurality of memory erase blocks 26;

a plurality of well/bulk drivers 60 each being connected to each memory erase sector 3a;

as shown in Fig. 3, each of memory erase blocks 26 comprising a plurality of memory cell transistors 11 having control gates 22 connected to word lines 10 (see lines 7-8 and line 61, column 7 and Fig. 2) sharing together with a plurality of select gate transistors/ column decoder transistors 12 within each of memory erase blocks 26 on a common p-well (bulk) region 3a which is formed on substrate 1 as shown in Fig. 9 Prior Art (see lines 52-58, column 6);

wherein: **the erase operation is conducted one by one of the erase blocks 26 (see lines 1-5, column 3). Furthermore, it is very well known in the non-volatile**

memory art that all of the entire memory cells in a FLASH memory device are always erased at once (flash).

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Response to Arguments

4. Applicant's arguments filed 7/7/03 have been fully considered but they are not persuasive because of the following reason:

Ajika et al., 5,994,732, does clearly disclose the teaching that **the erase operation is conducted one by one of the erase blocks 26 (see lines 1-5, column 3)**. Furthermore, it is very well known in the non-volatile memory art **that all of the entire memory cells in a FLASH memory device are always erased**

at once (flash). Therefore, the rejection of claims 1-27 under 35 U.S.C. 102(b) as being anticipated by Ajika et al., 5,994,732, is still proper and is made FINAL.
